Deployed with Dovetail NVG Interface Shoe

**New Lifetime
Warranty**

The L2 G05 Three Hole MICH Helmet Bracket with Integrated Breakaway Base and Universal NVG Mount

The Wilcox L2 G05 Three Hole MICH Helmet Bracket with Integrated Breakaway Base and Universal NVG Mount allows firm attachment to a MICH helmet drilled with the standard three-hole pattern. This NVG Mounting System is unique in that it provides two modes of operation. The first mode allows the Mount to “break away” from the base under a stressed condition, such as when prompted by interference during fast roping, maritime operations, hard impact or when entering or exiting mobility platforms. Without the Wilcox breakaway feature, the potential to induce neck injury is increased. The second mode allows the *Universal NVG Mount* to securely lock the mount to the base.

Features:

- Breakaway Feature allows Mount to Break Away under Stress, or to Securely Lock in Place by Means of a Breakaway Switch
- Can be Used with the Wilcox NVG Lanyard (see TDS078) for Secure Attachment to an Array of NVG Devices Preventing Loss of the NVG and Breakaway of the Wilcox Universal NVG Mount from the Helmet Mount Base
- Each Mechanical Adjustment is Durable and Ergonomically Positioned for Easy One-Handed Operation While Handling a Weapon
- Maintains a Very Low Profile Stance on the Helmet
- Flat Matte Finish for Covertness in Combat Conditions
- Thousands of Mounts of this Type Fielded to Date
- Combat Proven by the US Special Operations Community and Domestic Law Enforcement Personnel
- Breakaway Universal NVG Mount Interfaces with the Entire L2 Series of NVG Mounting Systems to Include the NVG Ratchet Strap and NVG Skull/Head Mounting Systems
- Design Approach Cuts Down on Logistics and Overall System Cost

Specifications:

Weight (L2 Series Three Hole MICH Helmet Bracket with Integrated Breakaway Base)	2.16 oz (0.06 kg)
Weight (Universal NVG Mount)	2.88 oz (0.08 kg)
Material Construction	Light Weight, Aerospace Grade Metal
Accommodates NVG Suite	AN/PVS-7A, 7C, 15 or 18
Vertical Height Adjustment	.900" Total Travel
Viewing to Stowed Position	117° of Travel
Finite Tilt Adjustment	0° to 20° Tilt
Fore/Aft Travel	1.100" Total Travel
Auto On-Off Feature	Applicable with Wilcox AN/PVS Metal Interface Shoes

Wilcox's L2 G05 Three Hole NVG Mounting System

**L2 Series Three Hole MICH Helmet
Bracket with Integrated Breakaway Base**

Universal NVG Mount

**New Lifetime
Warranty**

The Wilcox NVG Mounting Systems Product Line is featured with a wide range of adjustments to customize the position of the Night Vision Goggle for proper eye position and relief.

L2 G05 Three Hole MICH Helmet Bracket with Integrated Breakaway Base Components (See Above):

- 1) Secured to the MICH Helmet by three screws assembled from the inside of the helmet out.
- 2) An NVG Mount Alignment Guide assists in directing the *Universal NVG Mount* into place while wearing the MICH Helmet.
- 3) A Breakaway Switch allows the operator to easily set which desirable mode (breakaway or locked), depending upon operational conditions.
- 4) A unique Vertical Height Adjustment Button easily facilitates positioning NVG height up or down with a simple push of the button. No longer is it necessary to manually rotate a thumb screw to perform this function.

Order Numbers:

- 28300605** L2 G05 Three Hole MICH Helmet Bracket with Integrated Breakaway Base and Universal NVG Mount (Accommodates AN/PVS-7A/7C/15/18 NVG)
- 28300605B** L2 G05 Three Hole MICH Helmet Bracket with Integrated Breakaway Base w/o Universal NVG Mount
- 28300601** Universal NVG Mount Only

Universal NVG Mount Components (See Above):

- 5) An ergonomically placed Flip Button allows the Mount to "flip up" to a very low profile when stowed. This pivot mechanism is simple and robust by design and will not loosen over time.
- 6) A sleek, low profile Tilt Adjustment Knob allows for finite tilt adjustment of the NVG by the operator, then lock the position in place with a simple turn of the knob.
- 7) Two coinciding Fore/Aft Travel Release Buttons provide Fore/Aft NVG travel.
- 8) An ergonomically placed NVG Release Button allows for one handed release of the NVG.
- 9) A Magnet Switch facilitates the "Automatic Function" of the NVG.
