

The Wilcox Line of *Vertical Assault Climbing Hooks* features a series of uniquely designed hooks that easily interface with a telescopic pole for use in vertical assault applications by means of a high strength, two-piece locking pole interface. These uniquely designed hooks are manufactured of 5/8" diameter Titanium Rod with a weld attachment point that is machined, not bent. This, allows for greater weld area, while providing decreased weight and increased strength over currently fielded hooks that are made of 1/2" rod.

System Components:

- 1)** A threaded connector on each pole interfaces with a Pole Interface for mounting to currently fielded boat poles.
- 2)** Precision welded hooks provide a secure attachment.
- 3)** Rounded Carabiner Interface provides a secure point for attaching a carabiner with decreased cockle (carabiner not included).
- 4)** A Pole Interface provides a two piece male-female connector that easily disconnects to meet mission requirements.
- 5)** A Release Button allows the Pole Interface to lock into place when inserted into the pole tip. Simply depressing the Release Button allows the interface to slide out of the pole tip.
- 6)** Serialized and date stamped for tracking service requirements (not shown).

**3 Prong,
 120 Degree Hook
 (P/N 42700G01)**

**3 Prong,
 154 Degree Hook
 (P/N 42700G02; Depicted
 with Carabiner, Not Included)**

**Double Prong
 Hook
 (P/N 42700G04)**

**Single Prong
 Hook
 (P/N 42700G03)**

**Pole Interface
 (Provided with
 all Hooks)**

Specifications:

Weight (Includes Interface):

42700G01	41.84 oz (1.25 kg)
42700G02	41.84 oz (1.25 kg)
42700G03	23.60 oz (0.62 kg)
42700G04	32.88 oz (0.99 kg)

Material Construction:

Aerospace Grade
 Titanium 6AL-4V Hooks,
 Aluminum Interface

Order Numbers:

- 42700G01** Titanium Pole Hook - 3 Prong, 120 Degree Hook with Pole Interface
- 42700G02** Titanium Pole Hook - 2 Prong, 154 Degree Hook with Pole Interface
- 42700G03** Titanium Pole Hook - Single Prong with Pole Interface
- 42700G04** Titanium Pole Hook - Double Prong with Pole Interface
